Subject: Grand County Conditional Use Permit Resolution: Revised Annual Statement of Continued Compliance Regarding Department of Energy's (DOE) Moab Uranium Mill Tailings Remedial Action (UMTRA) Project

Dear Ms. Graham:

DOE has prepared the Annual Statement of Continued Compliance per the Conditional Use Permit (CUP) Resolution 2006-2741 within the requested timeframe of the CUP, submitting initial letter July 28, 2010. As a result of comments at the Mill Tailings Steering Committee meeting on August 24, 2010, minor changes were made to this compliance letter as follows.

- Page 2, a typographical error was corrected
- Page 5, location of off-site stations was changed to "around the Moab community"
- Page 6, additional details were provided to clarify the goal of final ground water remediation

Enclosed please find a copy of the letter of compliance for the Council. For your convenience, the first five pages of the statement address reporting requirements outlined in Section 17 of the CUP resolution; and the last three pages address additional questions from the Steering Committee.

A significant amount of work activities was completed over the past year in order to increase shipping quantities. The enclosed report provides details of the construction and operational activities over the past year, and ongoing environmental monitoring performed.

DOE looks forward to a continued cooperative relationship with the County. If you have any questions regarding the Annual Statement please contact me at 970-257-2115 or Ed Baker of my contractor staff at 970-257-2112.

Sincerely,

A handwritten signature in black ink, appearing to read "Donald R. Metzler".
